About: Making paper – from old newspapers

You can make awesome paper out of old newspapers. First, the newspapers are torn into small pieces and kneaded into a pulp with water. It's a lot of fun. Then the pulp is spread on sieves. You can put flowers, spices or herbs in your paper, then it looks very nice after drying. The homemade paper is particularly suitable for treasure maps, secret diaries or for your own magic formulas.

Workshop in cooperation with Verbraucherberatung Bonn.

For children aged 8 - 12 years.
