Newsletter 03 / 2025

Dear friends of Kultur verbindet e.V.,

On March 29, 2025, the Day of Sustainability will take place in Bad Godesberg at the Theaterplatz. Approximately 14 organizations will be represented with booths. In addition to information, participatory activities will be offered. Kultur verbindet e.V. will also have a booth. We will provide information about the new participation center, which is expected to launch in May, and offer various quizzes for adults and children on the topics of sustainability and the environment.

From our projects

Last month, the box festival ("Kistenfest") took place at Andreasschule. It was the last school to conduct the box festival this academic year. Here too, the children decorated their book boxes together with their mentors and parents, and reported on their reading successes and the books they read together.

Bücherkistenfest Andreasschule - Februar 2025

We expect to include another primary school in the project "My First Library" in the next school year. We are in discussions with the Marktschule in Bonn Pützchen and hope that we will finally make "the leap to the other side of the Rhine" by the upcoming school year.

This weekend, we organized a visit to the German Museum as a cultural event. Out of the 15 registered children, 9 attended. This is somewhat disappointing. However, this allowed all children to have their own workstations. Gummy bears dived under an overturned glass to the "seafloor," balloons were "inflated" with a mixture of vinegar and baking soda, and the children were able to experiment with real "polar researcher gloves" and experience firsthand how difficult it is to work with them. Everyone had a lot of fun and learned many interesting things.

"Meine Zukunft gestalte ich selbst"

Since March, we have had a partnership with the OGS of the Karlschule in Mackeviertel, and we offer a workshop on nature and the environment there every two weeks. We started with a trip to the nearby park at the LVR Clinic. We played games and focused on the topic of trees. In the coming weeks, we will be building insect hotels with the children and teach them how to take care of nature in spring.

In March, we offered a sewing workshop for children in the Zentrenmanagement. Fabric bookmarks were sewn. The children had great fun working with the sewing machine and were proud of their self-sewn bookmarks.

Dates

Saturday, 29. März 2025, 10:00 – 17:00 Uhr Theaterplatz in the centre of Bad Godesberg

Sustainability Day in Bad Godesberg – Experience sustainability together! On 29.03., associations, organisations and initiatives from Bad Godesberg will present exciting ideas for an environmentally friendly future.

Saturday, 22. März 2025, 20:30 Uhr **Lights out!** Earth Hour 2025 in Bonn

On Saturday, March 22, 2025, it's that time again: the global event Earth Hour invites everyone to turn off their lights from 8:30 to 9:30 PM local time for an hour to make a statement for climate protection. Millions of people, cities, and organizations around the world participate in this symbolic action to highlight the urgent need for action in the fight against climate change.

The city of Bonn, municipal utilities, the university and Bonn companies such as DHL have been involved in Earth Hour in recent years and switched off the lighting of their buildings. Even the well-known landmarks such as the old town hall or the Bonn Cathedral remained in the dark.

Take the opportunity to set an example for more climate and environmental protection and switch off the lights in your home!

Saturday, 12. April 2025, 11 -14 Uhr Make your own chocolate in the Bad Godesberg Zentrenmanagement. For registrations, please see attachment to this newsletter.

14. - 17. April 2025: Video and film holiday workshop for children and young people aged 10 - 14 years. For more information and registration, please see the attachment to this newsletter.
