Infobrief 10 / 2022 (2)

Dear friends of Kultur verbindet e.V.,

For our new project "I shape my own future" we have a new employee since October. Naziha Hasan will develop and implement the ongoing workshops, holiday projects and weekend offers planned for children aged 8 – 12 years.

Here she introduces herself:

Bildquelle: privat

My name is Naziha Hasan and I was born in Syria. I studied agricultural science at Aleppo University and did my master's degree in plant protection. After that, I worked there as a lecturer and as a research assistant for ICARDA, an international research center.

Since I came to Germany, I engaged in studying and improving my German.

A year ago, I completed a training course to become a climate change mentor. In addition to acquiring expertise in climate adaptation, sustainability and climate protection, I was able to expand my skills in the field of teamwork and as a networker.

I am a mum of two beautiful kids (6 years old and 13 years old).

I really enjoy working with and for children. Nature protection and sustainability are very important to me and I want to sensitize children to this topic and show them what opportunities they have to live a good life in our current climate and environmental conditions.

Children need extracurricular education, good support outside school and meaningful leisure activities. I want to support children with my skills and motivation and contribute to environmental and climate protection together with them.

Information from the Executive Board

With funding from the Integrationsrat (Integration Council), we were able to purchase our own smartphone.

Therefore, the association now has a new telephone number:

0163 63 98 552.

The new phone enables us to professionalize our work, to create groups on Signal or WhatsApp for parents, reading mentors etc. and to send everyone the invitations in different languages and as audio files.

We are still in the process of saving all numbers and contacts. We kindly ask you to use the new number immediately. However, we can still be reached under the previous number for a transitional period.

Our projects

On October 19th, the kick-off event for the children who have recently joined the project "Meine erste Bibliothek" ("My First Library") took place at the Lyngsberg School. It was the first launch event we have been able to do since March 2020! At the school, 10 children will discover the world of books and have a lot of fun together with their mentors.

Public relations

We need support for our Facebook page. Our dates and activities have to be regularly posted. We are looking for someone who can reliably take on this task. The work is manageable in terms of time, with one hour per week it should be easy to do. If you are already on Facebook, have experience with posts and would like to support us, you can contact Frauke Rheingans at frauke.rheingans@kulturverbindet-bonn.de or Tel.: 0163 63 98 552.

Tips for reading and leisure

Every year, the Reading Compass of the Leipzig Book Fair and the Stiftung Lesen publishes an overview of good children's books. The special thing about it is that the books are also evaluated by a children's jury. The list – sorted by age group – can be found in the appendix to this newsletter. Each book is accompanied by a short description of the content and an evaluation in the categories suspense, emotions, knowledge and humor.

From 23 October to 6 November, the Captain Book Reading Festival will take place in many places in Bonn – museums, libraries, schools... Information about the dates can be found on the homepage www.kaeptnbook-lesefest.de. All events are free of charge.

From 04. – 06.11. the 13th Bonner Buchmesse Migration will take place at the Haus der Geschichte in Bonn. This year's theme is "What is home". Readings, poetry slams, films, talks and concerts are offered. The program can be found on the homepage www.buchmessemigration.de. The exhibition "Heimat – Eine Suche" (Home – A Search) can also be visited at the Haus der Geschichte until 8 January 2023.

For all children who want to make beautiful and unusual lanterns, we have this tip: <https://www.geo.de/geolino/basteln/31807-thma-laternen-basteln>. There are instructions how to make jellyfish lanterns, lanterns made of beverage packaging, unicorn lanterns and much more. Take a look! You are also very welcome to send us photos of your cool and unique lanterns.

Dates

30.10.2022, 11 - 13 Uhr: Workshop "Fire". You can register here: tsgumei@yahoo.de or 0151 111 92 547. Invitation see attachment to this newsletter.
